

# **(Unclassified // FOUO)**

## **CSWC Operational Period Summary**

### **0600 June 17 2018 to 1800 June 17 2018**

On 6/15/18, the Mariposa Grove of Giant Sequoias reopened to the public, following a landmark project to protect the ancient trees and reestablish the area's natural serenity. According to the Yosemite National Park Superintendent, Michael Reynold, this was the largest protection, restoration and improvement project in park history.

### Cal OES INLAND REGION

- See Fire Activity Slides.

### Cal OES SOUTHERN REGION

#### Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on 06/14/18 at 0846 hours:

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- Incident Management Teams (IMTs) transitioned on 06/16/18. The IMT Red Team started on 06/17/18.

#### **Activations**

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

#### **Deployments**

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.

#### Train Derailment, City of Commerce, Los Angeles County, SPILL: 18-3972

On 06/17/18 at 2252 hours, the California State Warning Center (CSWC) received a report from Burlington Northern Santa Fe Railroad (BNSF) that one car had derailed in the upright position in a railyard due to an unknown cause.

- Four (4) gallons of gear oil was released as a result of a punctured gear box, caused by the derailment. No waterway was involved.
- There were no injuries reported as a result of the incident.
- CSWC personnel performed notifications per SOP.

# WEATHER SYNOPSIS BY REGION

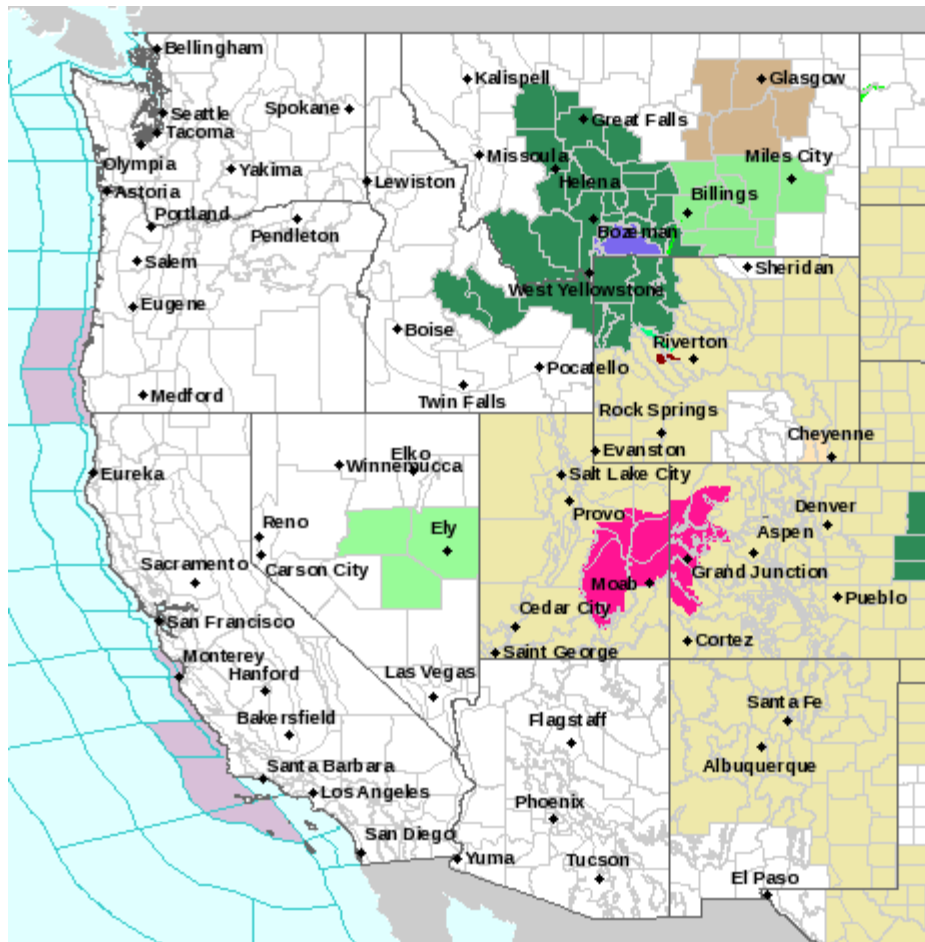

## **NORTHERN CALIFORNIA**

Warm and dry weather returns this week. Isolated, day shower or thunderstorms near Mt. Lassen are possible; however, much of the region will return to warm and dry weather today, as highs are expected to warm about 10 degrees from Sunday's readings. An upper ridge is forecast to build across the area Tuesday and Wednesday before the next short-wave trough is forecast to dent the ridge on Thursday. Temperatures are expected to be seasonably hot with highs in the Central Valley forecast to range from the mid 90s to around 100. The threat of showers and thunderstorms with Thursday's trough is expected to remain to the north along the Oregon/California border.

## **SOUTHERN CALIFORNIA**

A warming trend is forecast this week, as high pressure strengthens over Southern California. The marine layer will become more shallow with less extensive low clouds and fog. Inland temperatures will rise to above average Tuesday through Friday. Slightly cooler temperatures are expected next weekend, as high pressure weakens.
